REDUCING TOTAL COST OF OWNERSHIP

Business communication features are all in-built into the IntelliSYS communication server. By utilizing built-in call handling features, employee management applications, business owners can multiply productivity while minimizing cost.

SIMPLIFIED BUSINESS, BUILT IN CAPABILITIES

Business communication needs covered by IntelliSYS platform. Without requiring external devices, you can build up office communication infrastructures. Minimise cost, and yet satisfy your clients with fast response.

- **Voice mail**
Sends e-mails to notify you when you have new voice messages.
- **Auto Attendant & Queue Announcement**
Automatic guidance for call routing. It directs clients to the right department and callers can either stay in the call line or leave a voice message after the queue announcement.
- **Mobile Integration**
By installing designated applications, smartphone devices can work as company extensions
- **Employee Management App**
Call statistics analysis report, as well as employees

TRUE HYBRID: Saving costs with utilizing your existing resources

IntelliSYS supports all available network connections in one platform. Both on the outside line as well as the extension side. Whether you connect to analogue or digital lines, or via Ethernet to a SIP trunk, we will manage your connection and supply you with a voice and unified communication experience. 112 SIP Licenses Built-in By applying this "True Hybrid" concept, your business can be ready even for future platform transition with minimum investment.

Saving costs with IP networking

● Saving Network Costs

By connecting the IntelliSYS units in different offices with an IP network, you can construct a network that integrates both voice and data. This enables extension calls between offices over the IP network and reduces costs.

● Saving Costs when Expanding

The networking function, enabled by linking with the IntelliSYS, lets you control the entire system including other offices with a single IntelliSYS. Upto 127 systems can be connected in a networked environment. Connect legacy systems over QSIG & SIP Trunk to expand & keep investment safe.

112 SIP Licenses is common for SIP Extension, SIP Trunk & PBX-FBX Connectivity.

The IntelliSYS is an advanced IP PBX system with its powerful, scalable, and feature-rich design. Built to address the needs of modern businesses, it effortlessly integrates both traditional and VoIP telephony.

This system enables organizations to boost productivity, reduce costs, and streamline communications, with scalability from 16 up to 32000 ports (IP + TDM) to accommodate business growth.

MOBILITY ENHANCES COMMUNICATION FOR ANY BUSINESS STYLE

● Mobile Softphone

IntelliSYS connects all models, 3rd Party WiFi SIP with our unique technology that enables comfortable conversations, even in noisy places.

Within the coverage area of WiFi Network, you can keep in constant touch with colleagues and customers even when moving around the work environment.

● Paging System

Using the paging system enables you to efficiently share information to entire floors. the system can broadcast the messages through designated extension terminals or 3rd party SIP speakers

BUILT-IN PMS INTERFACE TO INTEGRATE WITH HOTEL FOS APPLICATIONS

The IntelliSYS supports a FOS [Front Office Software] interface function. You can connect the IntelliSYS directly to a FOS without purchasing a third party external interface equipment to construction cost efficient hotel system. Integration with third party FOSs also enables easy call management for receptionists and operations, and streamlines wake-up call setting and management. This makes locking out phones of checked-out guests a one-touch operation. Customer satisfaction is further improved with IntelliSYS. It supports Fidelio compatible FOS from Third-party vendors and features such as room changes, room-to-room barring, and wake-up alarms....

ENHANCED FEATURES

- 1 IntelliSYS is brand neutral for SIP extensions and we support all Models of SIP Phones.
- 2 Boss - Secretary (with Busy Lamp Field) & Distinctive Ring for Internal and external Calls.
